

FILTERSAFE SPOTLIGHT

Australia Vineyard Development

Project	Darling River Irrigation Protection
Client/Dealer	Irrigear Renmark
End User	Grape Grower
Location	New South Wales
Application	Protection of Drip Irrigation System
Water Source	Darlin River
Filter Model	Titan 20K x 5, 316L stainless steel
Screen	130 micron
Operating Pressure	40 meters
Flow Rate	720 M3/H
Installation Date	2022
Unique Challenges	Very high organic and colloidal matter

Why Filtersafe Was Chosen

Filtersafe could supply a filter that had a high flow rate, horizontal inverted installation, with easy maintenance (ground level maintenance with no raised platforms needed).
