

Low Sulfur Diesel

Project name	Mexico WWT (West)
End User	Pemex
Country	Mexico
Application	Filtration of Low Sulfur Diesel – Catalytic column
Flow rate	186m ³ /hr
Filtration degree	20micrometer
Water source	Refinery
Filtersafe solution	BS201V-8” – EXd IEC Design/Fab. ASME Section VIII div. I Design Temp: 125C° Design P: 16bar
Installation date	TBA
Additional Information	Replacing a Backwash filter solution
